Procedure and Guidelines for Engagement of Consultant(s) in the National Water Development Agency (NWDA) purely on contract basis

This document lays down comprehensive guidelines for appointment/engaging of human resources of appropriate skills, knowledge and aptitude for assignments in NWDA which are well defined in terms of content and scope.

The scheme of engagement of full time Consultant(s) in the NWDA shall henceforth be regulated as per these guidelines.

1. INTRODUCTION

The National Water Development Agency (NWDA) was set up in July 1982 under the apex control of Ministry of Water Resource, River Development & Ganga Rejuvenation, Government of India. NWDA carries out water balance and other studies on a scientific and realistic basis for optimum utilization of water resources of the Country for preparation of feasibility reports, detailed project reports under National Perspective Plan 1982. Subsequently, NWDA was also entrusted to explore the feasibility of intra-states links and preparation of Detailed Project Reports (DPR) of river link proposals under National Perspective Plan (NPP). In addition, NWDA is also required to undertake the work of preparation of DPRs of intra-State links and implementation of ILR projects and also completion of water resources projects under *Pradhan Mantri Krishi Sinchai Yojana* (PMKSY). Further, NWDA is also act as a repository of borrowed funds or loans from Banks/other institutions for the execution of projects.

The requirement for staff in NWDA was studied during 2009-10 by Staff Inspection Unit (SIU) of Ministry of Finance and the staff strength was recommended at 493. This has been accepted and implemented. However, at the time of assessing the staff strength SIU did not consider the aspect of preparing DPRs of intra-state link and no staff was provided for it. Subsequently, in the light of the judgment of the Hon'ble Supreme Court in February 2012, the Govt. of India is required to take up interlinking of rivers project (ILR) in a time bound manner, for which on the directions of Hon'ble Supreme Court a Special Committee for ILR under the Chairmanship of Hon'ble Minister for Water Resources was set up with the approval of the Cabinet. Further, DG, NWDA was made Member Secretary of the Special Committee for ILR and hence NWDA is required to provide secretarial support to the Special Committee for ILR. Thus, the work of NWDA has increased with requirement of output in a time bound manner. Moreover, the nature of work of NWDA also underwent a change predominantly desk job to more field oriented work. Keeping these facts in view, the Special Committee for ILR has set-up a Sub-Committee for restructuring of NWDA so as to strengthen it to give required assistance to Special Committee. The Sub – Committee for restructuring of NWDA has submitted a report recommending a revised strength of 710 personnel. The said report is under consideration of the Ministry of Water Resources.

In the meanwhile, the Govt. has approved taking up the work of completion of 99 pending projects under PMKSY for which funding arrangement was made through NABARD and NWDA was entrusted with the responsibility of borrowing funds from NABARD for the projects and distributing it to the concerned states. No separate staff was given for this work.

Thus, it will be seen that whereas the strength of NWDA came down to 493 no increase has been made in spite of additional work and the recommendation of the Sub – Committee for restructuring of NWDA is still under consideration and yet to be implemented. However, the additional works had to be taken up immediately by the NWDA with the existing staff without augmentation.

In order to cope up with the current pace of projects / works, it has become necessary to engage the retired officers / young professionals from open market as Consultant(s) at the following levels:

I. Technical Consultant

- a) Consultant (Level – I)
- b) Consultant (Level – II)
